

Toni Laracuente RN, BSN, MHA, MS, CPHIMS

Senior Vice President

Global Head of HIMSS Analytics

Toni Laracuente is the senior vice president and global head of HIMSS Analytics. With more than thirty years of nursing, healthcare IT, informatics, and executive leadership experience, she leads a global team of clinical, advisory, and technical specialists, partnering with governments, health systems and providers on the digital transformation of healthcare. Toni is passionate about the intentional use of innovative technology and systems design to facilitate delivery of safe, high-quality care and the use of data analytics to inform operational efficiency, health equity, excellence in patient and population health outcomes and health system performance. She is also a thought leader in the role of digital health and health systems in climate sustainability action planning, climate change risk, resilience, and impact mitigation.

Toni has a diverse healthcare background in critical care, emergency department, quality improvement and clinical informatics and has served in senior executive, clinical, business management, strategic planning, and senior consulting roles. Toni is a registered nurse with a Bachelor of Science in Nursing, a master's degree in health administration, a master's in science in Healthcare Management and Informatics and CPHIMS certification. She is a member of the Tri-Alfa National Honors Society.
